

## ACP Aluminium Sandwich Panel Roof For Warehouse Workshop

### Our Product Introduction

#### Basic Information

- Place of Origin: HEBEI, CHINA
- Brand Name: BAODU
- Certification: CE
- Minimum Order Quantity: 500
- Price: \$11-16 Square Meter
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

#### Product Specification

- Product Name: Baodu Box Panel For Warehouse And Workshop
- Length: Customer's Choice
- Width: 950mm-1000mm
- Thickness: 50/75/80/100/120/150/200mm
- Advantage: Sound Insulation, Easy Install/Waterproof/Fireproof, heat Insulation, fireproof/sound Reduction, waterproof
- Density: 6kg/m<sup>3</sup>-100kg/m<sup>3</sup>
- Steel Thickness: 0.4-0.8mm
- Color: Customized
- Core Material: Rock Wool, Rockwool/Glasswool, Fiber Glass
- Application: Building, Warehouse, roofing, Wall And Roof For Building
- Highlight: **Workshop aluminium sandwich panel roof, Warehouse aluminium sandwich panel roof,**

## Product Description

The new type of hidden screw fire-proof and heat insulation four side grooved and tongued joint metal curtain wall panel mainly consists of core material, surface sheet and base sheet, polyurethane side seal; the two ends of the panel are bent towards one side of the inner panel to form a folding edge. It is characterized in that a sealing plate is fixed between the flange and the core material, and the size and shape of the figure formed by the flange and the sealing plate are the same as the size and shape of the end face of the core material. Adhesive tape can also be provided to achieve sealing, heat reflection and heat insulation.

## Features

1. The end surface of the core material is completely sealed through the cooperation of the sealing plate and the folded edge, so that the four sides of the metal curtain wall panel have good sealing performance, and the disadvantage of uneven end surface is solved.
2. The metal curtain wall in the past has good air-tightness, water-tightness and thermal insulation performance, which ensures the thermal insulation performance of the curtain wall panel.
3. Use hidden screws to fix. It changes the traditional installation method with external locking screws. It not only has excellent waterproof performance, but also more beautiful and practical.
4. The unique hidden screw design prevents rainwater from infiltrating; the three-dimensional design of the surface makes the system excellent decorative;
5. A variety of insulation materials can be selected for filling to improve flatness and strength.
6. The building wall is beautiful and flat, and the surface is smooth and flat, replacing the decorative effect of the aluminum curtain wall;
7. High bending resistance and excellent mechanical properties of the wall reduce the dependence on auxiliary steel structure.

## Product Details

## ADVANTAGES

1. **Quality:** imported equipment from Germany and Switzerland, professional workers who have been engaged in more than ten years, have their own research and development department, and fully meet the use standards of various countries.

2. **Customized service:** We arrange special person to connect according to customer needs, one-to-one service.

3. **Technical support:**

**Activity room:** We provide online guidance and installation services by dedicated personnel, as well as after-sales team service 24/7.

**Workshop:** We have nearly 50 professional engineers who can go abroad to provide technical support and guidance until all problems are solved for our customers.

4. **International trade operation:** We have been focusing on international trade in the construction industry for more than ten years, and have accumulated various experiences from different customers in different countries. So we can keep our operations up to date with our customers and new rules. Helps in customs clearance and saves cost and time for our customers.
