Product Description

Aluminium Sandwich Panel Competitive Metal Curtain 50mm Wall Roof Rock Wool Glass Wool

Product Description:

The new type of hidden screw fire-proof and heat insulation four side grooved and tongued joint metal curtain wall panel mainly consists of core material, surface sheet and base sheet, polyurethane side seal; the two ends of the panel are bent towards one side of the inner panel to form a folding edge. It is characterized in that a sealing plate is fixed between the flange and the core material, and the size and shape of the figure formed by the flange and the sealing plate are the same as the size and shape of the end face of the core material. Adhesive tape can also be provided to achieve sealing, heat reflection and heat insulation.

Features:

1. A metal thermal insulation curtain wall panel integrating fire protection, heat preservation and decoration.
2. Factory prefabrication and modular installation to minimize onsite workload.
3. The unique plugin method, while ensuring great waterproof performance, realizes rapid replacement of individual panels.
