

Waterproof Composite Foam Sandwich Panels PU PIR Cladding

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Model Number: Decorative Sandwich Panel
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

Product Specification

- Design Style: Modern
- Thickness: (W)350mm * (T)16mm * (L)3800mm.
(customized Length)
- Color: RAL
- After-sale Service: Onsite Installation, Onsite Training, Other
- Usage: Construction Insulation
- Product Name: Fireproof Waterproof Lightweight Heat Preservation Decorative Sandwich Cladding
- Width: 1000mm-1500mm
- Length: Customized
- Highlight: **Waterproof composite foam sandwich panels,
PIR composite foam sandwich panels,
pu pir Sandwich Panel**

Product Description

Fireproof Waterproof Lightweight Heat Preservation Decorative Sandwich Cladding

Product Description:

Decorative Sandwich Panel is a construction material that provides many advantages for buildings. It is designed to be fireproof, waterproof, lightweight, and to provide excellent heat preservation. The length of the panel can be customized to meet the needs of the construction project. The width of the panel is available in 1000mm-1500mm. Decorative Sandwich Panel offers a 10-year warranty, ensuring it is a reliable solution for any construction project. It is an excellent choice for architects and engineers looking for a decorative and durable construction material that will last for years to come.

Applications:

BAODU Decorative Sandwich Panel is a modern, fireproof, waterproof, light weight and heat preservation material that can be used for the decoration and insulation of exterior and interior. It is mainly composed of polyurethane, aluminium foil, al-zinc color steel and other material. It is produced with minimum order quantity of discussible and reasonable price. In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing, it will be provided according to their requirements.

Decorative Sandwich Panel technical support and service includes:

24/7 technical support via email and phone

Provide technical advice on application and installation

On-site maintenance and repair services

Troubleshooting and problem-solving for any technical issues

Regular updates on product performance and new features

Packing and Shipping:

Packaging and Shipping for Decorative Sandwich Panel

Decorative Sandwich Panels are typically packaged in either cardboard boxes or wooden crates. The size of the packaging depends on the size of the panel. When shipping multiple panels, they should be stacked in the crate or box and wrapped in heavy duty plastic film to prevent any damage.

In order to ensure the panels arrive safely at their destination, it is important to use the right packaging materials. The panels should be secured with bubble wrap, foam, or other protective material to prevent them from sliding around in the crate or box during shipping. If possible, the crates or boxes should be designed to be stackable to make the shipping process easier.

Finally, it is important to consider the weight of the package when shipping Decorative Sandwich Panels. Due to the weight of the panels, it is important to use the most appropriate shipping method to ensure the package arrives safely at its destination.

FAQ:

Q: What is Decorative Sandwich Panel?
