- Supply Ability: 5000 Square Meter/Square Meters per Day

#### Product Specification

- Product Name: Standard Steel Wall Panel System For Exterior Wall Decoration Anti-Corrosive Anti-Rusty
- Maintenance: Low
- Width: 600mm-1000mm
- Keyword: Metal Cladding Panels
- Weight: 3-10kg/square Meter
- Thickness: 0.4-3mm
- Color: Various Colors
- Density: 7.85
- Highlight: **JIS Metal Cladding Panels,**  
**Antirust Metal Cladding Panels,**  
**JIS aluminium panelling**

## Product Description

# Standard Steel Wall Panel System For Exterior Wall Decoration Anti-Corrosive Anti-Rusty

## Product Description:

Steel Wall Cladding is a durable and easy to install protective system for walls and roofs of industrial buildings. Made of steel, it is known for its high density of . good formability and excellent durability. Steel Wall Cladding is the perfect solution to provide superior protection for your building's walls and roofs, while also offering a sleek and modern appearance. The system is designed to be easy to install, with minimal maintenance, and its strong steel structure allows it to withstand extreme weather conditions. In addition, the Steel Wall Protection System is fire-resistant, corrosion-resistant and impact-resistant, making it an ideal choice for any industrial building.

## Features:

Why should you get metal walls?

Is long lasting and resistant to the elements – rain, hail, wind or shine

Resistant to chipping and cracking, and is energy efficient

Available in a range of colors and profiles

Fire and termite resistant

Adds dimension, depth and texture

Very easy maintenance.

## Technical Parameters:

Product Attributes	Parameters
Standard	AISI, ASTM, GB, JIS
Application	Exterior Wall
Material	Steel Plate, Aluminum, Stainless Steel
Application	Wall and Roof of Industrial Building
Installation	Easy
Corrosion Resistance	Excellent
Color	Various Colors
Weight	3-10kg/square Meter
Durability	High
Density	7.85

## Applications:

It has excellent corrosion resistance, good formability and low maintenance. The color can be various. The steel wall sheet system, steel wall siding system and steel wall cladding system are perfect solutions for interior and exterior walls, providing strong, durable and long-lasting protection against the elements. It is easy to install, maintain and clean. It is also available in a variety of colors and styles to suit any design scheme. It provides superior acoustic and thermal insulation, while also offering superior fire resistance. With its superior quality and performance, Steel Wall Cladding can be used in a wide range of applications, from industrial and commercial to residential and public buildings.

1. Industrial Facilities
2. Commercial Building
3. Social Construct
4. Power Plants
5. Agricultural objects
6. Sport halls

## Customization:

Steel Wall Cladding

**Brand Name:** BAODU

**Model Number:** Steel Wall Cladding

**Place of Origin:** Hebei, China

**Certification:** ISO 9001

**Minimum Order Quantity:** Discussible

**Price:** Reasonable

**Packaging Details:** In general, for steel structure , we use the steel frame packing to keep goods not to be broken . For sandwich panel and color steel sheet, we use the plastic packing . If the clients need special packing will according to their requirements.
