Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO 9001
- Model Number: Steel Wall Cladding
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meter/Square Meters per Day

Product Specification

- Product Name: Decorative Outdoor Aluminum Wall Shield Metal Cladding Panels Sheets System
- Weight: 3-10kg/square Meter
- Installation: Easy
- Width: 600mm-1000mm
- Keyword: Metal Cladding Panels
- Project Solution Capability: Graphic Design 3D Model Design Total Solution For Projects Cross Categories Consolidation
- Thickness: 0.4-3mm
- Application: Exterior Wall
- Highlight: **ODM Metal Cladding Panels,**
ODM Aluminum Metal Cladding Panels,
ODM metal cladding sheets

Product Description

Decorative Outdoor Aluminum Wall Shield Metal Cladding Panels Sheets System

Product Description:

Steel Wall Cladding provides a reliable and durable solution for exterior walls, with excellent formability and fireproof performance. This system offers an array of design capabilities with high-quality AISI, ASTM, GB and JIS standards, allowing for a wide range of graphic design, 3D model design, and total solution for projects across multiple categories. Our steel wall panel system, steel wall facade system and steel wall protection system are perfect solutions for any building, providing protection and style.

Advantages:

Advantages of Wall Cladding

The advantages of wall cladding are as follows:

- It prevents dirt and pollution.
- It provides sound insulation and heat insulation
- The maintenance cost is low
- It can withstand weather agents

Technical Parameters:

Attribute	Value
Application	Wall and Roof of Industrial Building, Exterior Wall
Formability	Good
Material	Steel Plate, Aluminum, Stainless Steel
Thickness	0.4-3mm
Standard	AISI, ASTM, GB, JIS
Density	7.85
Installation	Easy
Weight	3-10kg/square Meter
Maintenance	Low
System	Steel Wall Panel System, Steel Wall Covering, Metal Wall Cladding System

Applications:

Our colored steel wall panels will allow you to meet different standards for agricultural, industrial, and residential buildings, such as schools, hospitals, apartments, offices, museums, warehouses, theaters, and other buildings.

Steel Wall Cladding has many applications. It is commonly used for **Steel Wall Facade System**, **Steel Wall Shield System**, and **Steel Wall Facade System**. It is an ideal choice for industrial building walls and roofs due to its anti-corrosive, anti-rusty, and decorative properties. It is made from high-quality material with a density of 7.85. It is available in various colors and is reasonably priced. Furthermore, it is certified by ISO 9001 and comes with an online technical support and onsite installation service. The minimum order quantity is negotiable and it is delivered within 15 days. Payment can be done through L/C, D/A, D/P, T/T, Western Union, or MoneyGram. The steel structure is packed in steel frames to keep the goods intact while the sandwich panel and color steel sheet are packed in plastic. Special packing requirements are also accepted.

Features:

Our Steel Wall Cladding system is designed for maximum protection against corrosion and weathering. It is made from high-quality steel and is resistant to fire, rot, and insects. It is also highly durable and easy to install. The system is perfect for any exterior wall covering or shielding application. It can be used as a Steel Wall Facade System, Steel Wall Covering, or Steel Wall Shield System.

Support and Services:

BAODU Steel Wall Cladding offers technical support and services to ensure that our customers get the best out of their product. Our support team is available to answer any questions or concerns you may have about our products. We offer phone, email, and live chat support to our customers. We also provide online tutorials and resources to help customers better understand our products and how to use them. We strive to provide our customers with the best customer service possible and are always willing to go the extra mile to make sure that our customers are satisfied.

Packing and Shipping:

Packaging and Shipping Steel Wall Cladding

Steel wall cladding is mainly shipped in bundles on pallets. The packaging material should be suitable for the environment in which it is stored and transported. It is important to check the packaging material for any damage before using it. The packaging must be able to withstand exposure to moisture, dust, and other environmental factors.

The packaging should also be designed to protect the steel wall cladding from any mechanical damage during transit. The packaging should also include any necessary instructions for assembly or installation.

Additionally, the shipping method should be selected carefully. The right shipping method should be able to ensure the safe delivery of steel wall cladding, which may include using a freight truck or an air freight service. The shipping company should also be able to provide tracking services so that the customer can track the order and ensure its safe arrival.

FAQ:

Q1: What is the Brand Name of the Steel Wall Cladding?
