Product Description

Long Service Life EPS Sandwich Panel With Lightweight For Building

Product Description:

EPS Sandwich Panel is a type of wall panel that is suitable for outdoor use, made of three layers of material—an outer and inner layer of waterproof fireproof material, and a middle layer of 8kg/M3 EPS insulation. This combination of materials creates a strong, durable, and long-lasting wall panel that is both waterproof and soundproof, and has a lifespan of between 15 and 30 years. It is perfect for use in outdoor applications, such as building walls, fences, and sheds.

The EPS Sandwich Panel is made of high-quality materials that provide excellent insulation, as well as protection from the elements. Its waterproof and fireproof layers keep the panel safe from the harsh outdoor environment, while its soundproof layer ensures a quiet and peaceful environment. The EPS insulation also keeps the panel warm in winter and cool in summer, making it the ideal choice for any outdoor application.
