## Product Description

### Manufacturers Warehouse Insulated Exterior Wall Roof Rockwool Sandwich Panel For Green Projects

#### Product Description:

Rockwool Sandwich Panels are an excellent choice for your building project as they are composed of a combination of rockwool, PU, and color steel. The rockwool is an excellent material for insulation, and these panels are designed to provide superior heat-insulation. The panels are also available in a wide range of colors, from RAL to customized color options, and can be customized to the desired length. Additionally, after-sale services such as online technical support and onsite installation are available to ensure you get the most out of your investment.

Our Rockwool Sandwich Boards are designed to provide superior insulation and are available in a variety of colors, materials, and lengths. The panels are made of rockwool, PU, and color steel, and offer superior heat-insulation. They are available in a wide range of colors, from RAL to customized color options, and can be customized to the desired length. Furthermore, after-sale services such as online technical support and onsite installation are available to ensure you get the most out of your investment.

If you are looking for a reliable insulation solution, Rockwool Sandwich Panels are an excellent choice. The rockwool and PU materials provide superior heat-insulation, and the panels are available in a wide range of colors, from RAL to customized color options. The panels can also be customized to the desired length, and after-sale services such as online technical support and onsite installation are available to ensure you get the most out of your investment.

#### Features:

Product Name: Rockwool Sandwich Panel

Type: PU Sealing Rockwool Sandwich Panel

Length: Customized

Soundproof: Yes

MOQ: 300-500 Square Meters

Density: 90-150kg/m<sup>3</sup>
