1000mm Width Rockwool Sandwich Panel for Construction Insulation

Product Description:

Rockwool Sandwich Panel is a kind of composite panel which consists of two metal sheets and internal insulation material, such as Rockwool. It is a kind of heat insulation wall panel which can be used in both roof and wall. It has excellent features like fireproof, water proof, heat insulation and sound insulation. With its unique PU sealing technology, it can prevent leakage of heat and cold air. The steel sheet used is 0.4mm-0.8mm in thickness, and it is certified by CE. Therefore, it provides better performance and longer service life. Besides, our company also provides online technical support and onsite installation service. Rockwool Sandwich Panel is a perfect solution to your construction needs, especially in terms of heat insulation.
