

## Modern Rockwool Sandwich Board For Construction Insulation Steel 0.4mm-0.8mm

### Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

#### Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: CE
- Model Number: Rockwool Sandwich Panel
- Minimum Order Quantity: 200-500 square meters
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

#### Product Specification

- Application: Wall Building Warehouse Roofing Wall And Roof
- Usage: Construction Insulation Shop Outdoor Office
- Steel Thickness: 0.4mm-0.8mm
- Heat-insulation: Yes
- Design Style: Modern
- MOQ: 200-500 Square Meters
- After-sale Service: Online Technical Support, Onsite Installation
- Keyword: Rockwool Sandwich Panel
- Highlight: **0.8mm Rockwool Sandwich Board, Construction Insulation Rockwool Sandwich Board, Modern Rockwool Sandwich Board**

## Product Description

### Product Description:

Rockwool Insulated Panels are manufactured using innovative technology that ensures the highest quality and durability. The panels are made from high-density Rockwool insulation material that is sandwiched between two layers of metal sheets. This structure provides a strong and durable panel that is resistant to impact and weather damage.

Rockwool Composite Panels are also lightweight and easy to install, making them an ideal choice for a wide range of building applications. They are designed to meet the high demands of modern construction and provide excellent performance in terms of insulation, fireproofing, and waterproofing.

The PU Sealing Rockwool Sandwich Panel is a specific type of Rockwool Sandwich Panel that is designed for superior fireproof insulation. The panels are treated with a special fire-resistant coating that makes them highly resistant to fire and heat. This makes them ideal for use in applications where fire safety is a primary concern, such as in warehouses, factories, and other industrial settings.

Rockwool Sandwich Panels are also waterproof, which makes them a great choice for roofing applications. The panels are designed to resist water penetration and can be used in any climate or weather conditions. They are also highly resistant to corrosion, which ensures a long-lasting and durable roofing solution.

The panels can be customized to any length, which makes them ideal for a wide range of building applications. They can be used for wall building, warehouse roofing, wall and roof insulation, and many other applications. The panels are also easy to install, which reduces the time and cost of construction projects.

In summary, Rockwool Sandwich Panels are a highly versatile and durable building material that provides superior insulation, fireproofing, and waterproofing properties. They are lightweight, easy to install, and can be customized to any length, making them an ideal choice for a wide range of building applications. Whether you are looking for a roofing solution or a wall insulation material, Rockwool Sandwich Panels are an excellent choice.

### Features:

Product Name: Rockwool Sandwich Panel

Design Style: Modern

Steel thickness: 0.4mm-0.8mm

Waterproof: Yes

Heat-insulation: Yes

After-sale Service: Online Technical Support, Onsite Installation

Looking for a high-quality insulated sandwich panel? Check out our Rockwool Sandwich Panel, also known as Rockwool Insulated Sandwich Board or Rockwool Composite Panels. With a modern design style and steel thickness ranging from 0.4mm-0.8mm, this panel offers excellent waterproof and heat-insulation properties. Plus, we offer online technical support and onsite installation for your convenience.

### Technical Parameters:

Technical parameters of BAODU new model fireproof sandwich panel								
Allowable vertical load and thermal conductivity of BAODU new model fireproof rockwool roof sandwich panel (allowable deflection $\leq L/200$ )								
S(mm)	W/m <sup>2</sup> K	G(kg)	P=KN/m <sup>2</sup>	0.60	0.80	1.00	1.20	1.50
50	0.75	15.53	L(m)	3.66	3.13	2.75	2.46	2.12
70	0.53	18.37	L(m)	4.90	4.22	3.73	3.35	2.91
100	0.41	21.21	L(m)	5.99	5.17	4.58	4.12	3.59
125	0.36	24.05	L(m)	6.91	5.96	5.28	4.79	4.14
150	0.31	26.88	L(m)	7.82	6.75	5.98	5.37	4.68
200	0.23	22.78	L(m)	9.65	8.33	7.38	6.62	5.77
Allowable vertical load and thermal conductivity of BAODU new model fireproof glasswool roof sandwich panel (allowable deflection $\leq L/200$ )								
S(mm)	W/m <sup>2</sup> K	G(kg)	P=KN/m <sup>2</sup>	0.60	0.80	1.00	1.20	1.50
50	0.69	12.95	L(m)	3.74	3.23	2.86	2.57	2.23
70	0.47	14.50	L(m)	5.01	4.34	3.86	3.48	3.05
100	0.36	16.04	L(m)	6.21	5.32	4.73	4.28	3.75
125	0.34	17.06	L(m)	7.11	6.31	5.77	4.93	4.32
150	0.33	19.14	L(m)	8.00	6.94	6.18	5.58	4.89
200	0.30	22.78	L(m)	9.79	8.56	7.63	6.88	6.00

### Applications:

The BAODU Rockwool Sandwich Panel, also known as Rockwool Composite Panels or Rockwool Sandwich Board, is a superior product that is perfect for a wide range of applications. With its superior fireproof-insulation and innovative technology, this product is perfect for use in a variety of scenarios.

One of the most common applications for the Rockwool Sandwich Panel is in wall building. Its lightweight and easy-to-install design make it a popular choice for both residential and commercial construction projects. Whether you are building a new home or remodeling an existing one, this product is an excellent choice for adding insulation to your walls.

Another common use for the Rockwool Composite Panels is in warehouse roofing. The innovative technology used in these panels makes them ideal for use in warehouses and other industrial buildings. They are lightweight, easy to install, and provide excellent insulation, making them an excellent choice for keeping warehouses cool in the summer and warm in the winter.

The Rockwool Insulated Panels are also a popular choice for roofing and wall applications. They are easy to install and provide superior insulation, making them an excellent choice for both residential and commercial roofing projects. Whether you are building a new home or replacing an old roof, the Rockwool Sandwich Board is an excellent choice for your roofing needs.

When it comes to product quality, the BAODU Rockwool Sandwich Panel is second to none. It is CE certified, and the manufacturer has a minimum order quantity of 200-500 square meters. Despite its high quality, the price of this product is reasonable, making it an excellent choice for those on a budget. The packaging details are also excellent, with the manufacturer using steel frame packing for steel structures and plastic packing for sandwich panels and color steel sheet.

The BAODU Rockwool Sandwich Panel has a delivery time of 15 days and accepts a variety of payment terms, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The manufacturer also has a supply ability of 5000 Square Meters per Day, ensuring that you will always have access to this excellent product when you need it.

Finally, this product comes with outstanding after-sale service, including online technical support and onsite installation. If you are looking for a high-quality, innovative, and easy-to-install product for your next construction project, the BAODU Rockwool Sandwich Panel is an excellent choice.

## Support and Services:

Rockwool Sandwich Panels are high-quality building materials that offer excellent insulation and fire-resistant properties. Our technical support team is available to provide assistance with any product-related queries, including installation, maintenance, and troubleshooting. We also offer a range of services to ensure that your project runs smoothly, including:

[Product training and education](#)

[Customized solutions for unique project requirements](#)

[On-site technical support and guidance](#)

[Product testing and certification](#)

[Warranty and after-sales support](#)

Our commitment to delivering superior customer service means that we are always available to address any concerns or issues you may have with our products. Contact us to learn more about our technical support and services for Rockwool Sandwich Panels.

## FAQ:

**Q: What is the brand name of the product?**

A: The brand name of the product is BAODU.

**Q: What is the model number of the product?**

A: The model number of the product is Rockwool Sandwich Panel.

**Q: Where is the product manufactured?**

A: The product is manufactured in Hebei, China.

**Q: What certifications does the product have?**

A: The product has CE certification.

**Q: What is the minimum order quantity for the product?**

A: The minimum order quantity for the product is 200-500 square meters.

**Q: What is the price of the product?**

A: The price of the product is reasonable.

**Q: What are the packaging details for the product?**

A: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.

**Q: What is the delivery time for the product?**

A: The delivery time for the product is 15 days.

**Q: What are the payment terms for the product?**

A: The payment terms for the product are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

**Q: What is the supply ability for the product?**

A: The supply ability for the product is 5000 square meters per day.
