

Cold Rolled Stainless Steel Coil In Various Standard Grades And Thicknesses

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: CE, BIS, ISO9001
- Model Number: Steel Coil
- Minimum Order Quantity: 1 ton
- Price: Reasonable
- Packaging Details: Standard export waterproof package, suit for all kinds of transport, or as required
- Delivery Time: 7-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Ton/Tons per Month

Product Specification

- Product Name: Cold Rolled Stainless Steel Coil In Various Standard Grades And Thicknesses
- Standard: AISI, ASTM, GB, JIS, etc
- Port: Tianjin
- Tolerance: $\pm 1\%$
- Shape: Coil
- PAYMENT TERM: 30% Advance + 70% Balance
- Material Thickness Range: 0.4-2.0 mm
- Matching Material: Stainless Steel
- Application: Construction, Electronics, etc.
- Certificate: CE, BIS, ISO9001
- Highlight: Various Thicknesses Stainless Steel Coil, Cold Rolled Stainless Steel Coil

Product Description

Product Description:

Our Steel Coil product is a high-quality coil-shaped steel material that is perfect for various industrial and construction applications. It is made from different grades of steel, including SS400, Q235, Q345R, SA302, SA516, A572, S275, and S355, which offer great strength, durability, and resistance to corrosion. These grades of steel are popularly used in various industries and have different characteristics that make them suitable for specific applications.

The Steel Coil product is manufactured in compliance with various standards, including AISI, ASTM, GB, JIS, and others. This ensures that our product meets the required quality and safety standards. Our Steel Coil product is also available in different sizes and thicknesses, making it suitable for various applications.

The Steel Coil product is a cold-rolled steel coil that is perfect for different industrial and construction applications. It is a versatile and durable material that can be used for various purposes, including roofing, fencing, and others. The Steel Coil product can also be used for Ppgi/ppgl Color Coated Steel Coil applications, providing an excellent finish and high resistance to weather and corrosion.

Our Steel Coil product is made from the best quality materials, ensuring that it offers great performance and longevity. The Cold Rolled Gi Coil Ss400 Q235 Q345r Sa302 Sa516 A572 S275 S355 grades of steel used in the production of our Steel Coil product ensures that it is strong, durable, and resistant to corrosion. It is also available in different shapes, including coil, making it easy to handle and transport.

We offer flexible payment terms for our Steel Coil product. We require a 30% advance payment and a 70% balance payment upon delivery or completion of the project. This payment term makes it easy for our clients to manage their cash flow and ensures that they get the best value for their money.

Our Steel Coil product is a great choice for various industrial and construction applications. It is a versatile, durable, and high-quality material that meets the required quality and safety standards. It is perfect for Cold Rolled Steel Coil applications, Ppgi/ppgl Color Coated Steel Coil, and other applications that require a strong, durable, and corrosion-resistant material. Contact us today to learn more about our Steel Coil product and how it can help you with your project.

Features:

Product Name: Steel Coil

Holes Punching: Post Holes Punching After Profile Formed

Surface Treatment: Customized Or Galvanized

Material Thickness Range: 0.4-2.0 Mm

Grade: SS400, Q235, Q345R, SA302, SA516, A572, S275, S355

Shape: Coil

Our Steel Coil product is a versatile option for a variety of applications. Made from high-quality materials, including stainless steel strip, it offers durability and strength. With the option for custom colored metal roofing sheet building materials, our Steel Coil product is perfect for any project. It is also available in color coated steel coil galvanized, providing extra protection against the elements. Choose from a range of material thicknesses and grades, including SS400, Q235, Q345R, SA302, SA516, A572, S275, and S355.

Technical Parameters:

Product Name	Cold Rolled Steel Coil
Application	Construction, electronics, automotive and transportation,etc.
Thickness	6-20mm
Width	500-3000MM
Length	As you requested
Certificate	CE, BIS, ISO9001
Grade	DC01,02,03,04,SPCC,SPCD,SPCE,Q235,etc
Tolerance	±1%
Delivery Time	15-21 days
Color	Customers Samples Color
Coil Weight	3-5 Tons
Advantage	Fast Delivery
Payment	30% Deposit+70% Advance

Chemical Composition

Grade	C	Mn	P	S	Alta
DC01, SPCC	≤0.12	≤0.60	≤0.045	≤0.045	≥0.020
DC02, SPCD	≤0.10	≤0.45	≤0.035	≤0.035	≥0.020
DC03, SPCE	≤0.08	≤0.40	≤0.030	≤0.030	≥0.020
DC04, SPCF	≤0.06	≤0.35	≤0.025	≤0.025	≥0.015

Mechanical Properties

Grade	RCL(Mpa)	RM(MPa)	A80mm(%)	R90	N90
DC01	140~280	270~410	≥28		
DC02	140~240	270~370	≥34	≥1.4	
DC03	120~210	270~350	≥38	≥1.8	≥0.18
DC04	120~180	270~330	≥40	≥2.0	≥0.20
SPCC	130~300	270~410			
SPCD	120~240	270~370		≥1.3	
SPCE	120~210	270~350		≥1.8	≥0.18

Applications:

BAODU Steel Coil has a delivery time of 7 days and accepts various payment terms such as L/C, D/A, D/P, T/T, Western Union, and MoneyGram. With a supply ability of 5000 Ton/Tons per Month, it is a reliable product for any construction or manufacturing project.

The Steel Coil has many applications. It is commonly used in the construction industry to manufacture roofs, walls, and ceilings. Its flexibility makes it easy to mold into different shapes and sizes, making it an ideal material for automotive manufacturing. It is also used in the manufacturing of construction structures.

The Steel Coil comes in different grades, including SS400, Q235, Q345R, SA302, SA516, A572, S275, S355, which makes it a versatile product for different applications. Its material thickness range is 0.4-2.0 mm, making it a durable product that can withstand harsh environments.

In addition to its many uses, the Steel Coil can be customized with different surface treatments such as galvanized, which makes it resistant to corrosion and rust. It can also be matched with stainless steel, which enhances its strength and durability.

Overall, BAODU Steel Coil is a reliable and high-quality product that can be used in various applications. Whether you need Ppgi/ppgi Color Coated Steel Coil, Galvanized Steel Coil Z275 or Cold Rolled Gi Coil Ss400 Q235 Q345r Sa302 Sa516 A572 S275 S355, this product has got you covered.

Support and Services:

Our Steel Coil product technical support team is dedicated to providing you with the best assistance possible. We are committed to ensuring that your Steel Coil product performs at its best and meets your expectations. Our team is available to answer any technical questions you may have and provide troubleshooting assistance. We also offer a range of services to help you maintain and optimize your Steel Coil product's performance, including:

[Regular maintenance check-ups](#)

[On-site repair and maintenance services](#)

[Customized training programs](#)

[Product upgrades and enhancements](#)

Our goal is to help you get the most out of your Steel Coil product and ensure that it continues to meet your needs for years to come. Contact us today to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

The steel coil product will be packed in strong and durable wooden pallets or crates, securely wrapped with steel straps to prevent any damage during transportation and handling. Each pallet or crate will be clearly labeled with product information, dimensions, and weight for easy identification and inventory tracking.

Shipping:

The steel coil product will be shipped via container vessels, flatbed trucks, or railway transportation depending on the distance and destination. Our team will coordinate with trusted and reliable logistics partners to ensure safe and timely delivery. We will provide our customers with all necessary shipping documents and tracking information to monitor the progress of their orders.

FAQ:

1. Can we visit your factory?

Warmly welcome. Once we have your schedule, we will arrange the professional sales team to follow up your case.

2. Why choose us?

Our company have been in steel business for more than ten years, we are internationally experienced, professional, and we can provide variety of steel products with high quality to our clients.

3. How can we guarantee quality?

Always a pre-production sample before mass production; Always final Inspection before shipment.
