

1000mm Polyurethane Sandwich Panel with 38-42kg/m3 Density Building Envelopes

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: CE
- Model Number: Polyurethane Sandwich Panel
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

Product Specification

- Product Name: 1000mm Polyurethane Sandwich Panel With 38-42kg/m3 Density Building Envelopes
- Density: 40-42kg/m3
- Material: Polyurethane
- Steel Thickness: 0.4mm-0.8mm
- Thickness: 50mm-200mm, etc
- Heat Insulation: Yes
- Color: RAL Color; Customized
- Keyword: Insulated Metal Panels
- Highlight: 40-42kg/m3 Polyurethane Sandwich Panel, 1000mm Polyurethane Sandwich Panel, 40-42kg/m3 Density sandwich pu panel

Product Description

1000mm Polyurethane Sandwich Panel with 38-42kg/m3 Density Building Envelopes

Product Description:

The PU insulation polyurethane sandwich panel is made of two layers of pre-painted steel sheets, which are bonded together with a layer of polyurethane foam insulation. The foam insulation layer has a high thermal resistance, which prevents heat from penetrating the panel, making it an excellent choice for energy-efficient buildings. The product is available in a variety of colors, including RAL Color, which can be customized to suit the specific needs of the project.

The Polyurethane Sandwich Panel has a width of 1000mm, making it easy to install and handle. The modern design style of the product makes it an excellent choice for modern architectural designs. The product is easy to install and requires minimal maintenance, making it a cost-effective choice for builders and contractors.

The Polyurethane Sandwich Panel is an excellent choice for a range of applications, including residential, commercial, and industrial buildings. It is suitable for both new and existing buildings and can be used for both roofs and walls. The product is also fire-resistant, making it a safe choice for buildings that require additional fire protection.

In conclusion, the Polyurethane Sandwich Panel is a high-quality product that provides excellent thermal insulation properties, making it an ideal choice for energy-efficient buildings. It is a modern and stylish product that is easy to install and requires minimal maintenance. The product is available in a range of colors and can be customized to suit the specific needs of the project. It is a cost-effective choice for builders and contractors and is suitable for a range of applications, including residential, commercial, and industrial buildings.

Features:

Product Name: Polyurethane Sandwich Panel

Type: Polyurethane Sandwich Panel

Width: 1000mm

Soundproof: Yes

Heat Insulation: Yes

After-sale Service: Online Technical Support

Technical Parameters:

Type	Polyurethane Sandwich Wall Roof Panel
Density	40-42kg/m3
After-sale Service	Online Technical Support
Product Name	10
Surface	Customized
Length	Customizable According To Customer Needs
Heat Insulation	Yes
Keyword	Pu insulation polyurethane sandwich panel
Thickness	50mm-200mm,etc
Steel Thickness	0.4mm-0.8mm

Applications:

The Polyurethane Sandwich Panel is ideal for use in a variety of different settings, including residential homes, commercial buildings, and industrial facilities. It is particularly effective in environments where temperature control is important, as it helps to maintain a consistent temperature and reduce energy costs.

This product is also highly versatile and can be used in a range of different scenarios. For example, it can be used to insulate walls and roofs in new construction projects, or it can be used to retrofit existing buildings to improve their energy efficiency. It is also an excellent choice for use in cold storage facilities, as it helps to maintain a consistent temperature and prevent heat loss.

The Polyurethane Sandwich Wall Roof Panel is CE certified, ensuring that it meets the highest standards of quality and safety. It is also available at a reasonable price and with a minimum order quantity that is discussible, making it a cost-effective choice for a wide range of building projects.

When it comes to packaging and delivery, BAODU provides a high level of service. Steel structure is packed in steel frame packing to keep goods from breaking, while sandwich panel and color steel sheet are packed in plastic. If clients require special packing, BAODU can accommodate their needs. Delivery time is only 15 days, and payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

With a supply ability of 5000 square meters per day and online technical support for after-sale service, the Polyurethane Sandwich Panel is an excellent choice for anyone looking for a durable and efficient building material. Whether you are working on a new construction project or retrofitting an existing building, the Pu insulation polyurethane sandwich panel is the perfect solution for your insulation needs. Contact BAODU today to learn more about this innovative product.

Customization:

Our Polyurethane Sandwich Panels come in various thicknesses ranging from 50mm to 200mm and provide excellent heat insulation. The width of our panels is 1000mm. We offer after-sale online technical support to ensure customer satisfaction. If you are interested in

our Polyurethane Sandwich Panels, please do not hesitate to contact us for product customization services.

Support and Services:

Polyurethane Sandwich Panels are high-quality building materials that are widely used in construction projects. Our team of technical support experts is available to assist you with any questions or concerns you may have regarding the product's installation, maintenance, or performance. We also offer a range of services, including:

Custom panel sizing and cutting

On-site installation support

Product testing and analysis

Warranty and repair services

Our goal is to provide you with the best possible experience with our product, and we are committed to delivering timely and effective technical support and services. Contact us today to learn more.

Packing and Shipping:

Product Packaging:

The panels will be securely packaged in bundles and covered with plastic film to protect against dust and scratches.

The bundles will be strapped with steel bands to prevent any damage during transportation.

Shipping:

The panels will be shipped via a reliable carrier service.

Delivery time may vary depending on the destination, but we will provide a tracking number to ensure you can follow the progress of your shipment.

Please inspect the panels upon delivery to ensure that they have arrived in good condition.

FAQ:

Q: What is the brand name of the sandwich panel product?

A: The brand name of the sandwich panel product is BAODU.

Q: Where is the polyurethane sandwich panel manufactured?

A: The polyurethane sandwich panel is manufactured in Hebei, China.

Q: What is the certification of the product?

A: The product is certified with CE.

Q: What is the minimum order quantity for the product?

A: The minimum order quantity is discussible.

Q: What is the packaging detail of the product?

A: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing, it will be according to their requirements.

Q: What are the payment terms for the product?

A: The payment terms for the product are L/C, D/A, D/P, T/T, Western Union, MoneyGram.

Q: What is the supply ability of the product?

A: The supply ability of the product is 5000 Square Meters per Day.

Q: What is the delivery time of the product?

A: The delivery time of the product is 15 days.

Q: What is the model number of the sandwich panel product?

A: The model number of the sandwich panel product is Polyurethane Sandwich Panel.

Q: What is the price of the product?

A: The price of the product is reasonable.
