

## Hot Rolled Iron Carbon Steel H Beams For Structural Constructions

Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

### Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Model Number: Steel Beam
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: GB standard steel i beam 1. It can pack by container or bulk vessel. 2. 20ft container can load 25 tons, 40ft container can load 26 tons. 3. Standard export seaworthy package, it use wire rod with bundle according product's size. 4. We can make it as your re
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Ton/Tons per Month 15000T/per season, steel i beam

### Product Specification

- Surface: Oiled, Sand Blasting, Galvanizing, Painting, as Your Request.
- Durability: Long-lasting
- Shape: Beam
- Strength: High
- Technical: Hot Rolled
- Installation Method: Welding
- Material: Steel
- Length: 1--12m Or As Request
- Highlight: **carbon steel h beam Hot Rolled ,  
Iron carbon steel h beam ,  
Structural Constructions carbon steel h beam**

## Product Description

### Hot Rolled hot rolled iron carbon steel h beams for Structural Constructions

#### Product Description:

Our Steel Beam is an essential component in any steel structure construction project. It can support heavy loads with ease, making it the go-to product for industrial buildings, bridges, and warehouses.

Our Steel Beam can be customized to meet our customer's requirements. We follow the customer's marking specifications to ensure the product is delivered exactly as requested.

With its superior load capacity, our Steel Beam is perfect for large-scale construction projects that require reliable and sturdy materials. The high-strength carbon steel h beam offers unbeatable strength and durability, making it the perfect choice for long-term use.

Our Steel Beam is a versatile product that is ideal for use in a wide range of construction applications. Whether you are building a large-scale industrial building, a bridge, or a warehouse, our Steel Beam is the perfect product for you.

Investing in our Steel Beam will save you time and money in the long run. Its high load capacity and durability mean that it can withstand heavy loads without bending or breaking. You can rest assured that our Steel Beam will last for years to come.

Overall, our Steel Beam is the perfect product for heavy-duty construction projects. Its high-strength carbon steel h beam, customized marking, and superior load capacity make it the go-to choice for industrial builders and construction companies. Invest in our Steel Beam today and experience the benefits of a reliable and durable construction material.

#### Features:

Product Name: Steel Beam

Strength: High

Processing Service: Punching, Cutting, Welding

Surface: Oiled, Sand Blasting, Galvanizing, Painting, as Your Request

Stock: All Size Available

Steel Beam is a strong and sturdy I-beam steel product, ideal for use in steel structures. It is available in all sizes and can be processed to your specifications with punching, cutting, and welding services. The surface can be oiled, sand blasted, galvanized, painted, or customized to your request.

#### Technical Parameters:

H BEAM (GB/JIS)

Sizes:100mm to 900mm

Dimensional specifications:  
JIS G3192,GB/T11263,EN10034,ASTM

Material Specifications:  
JIS S5400,GB Q235B/Q355B,EN S235,S355

## Applications:

BAODU Steel Beam is a high-quality metal structure steel beam that is widely used in construction projects. It is made of hot-rolled iron-carbon steel H-beams, ensuring durability and stability in any given situation. This product is manufactured in Hebei, China, ensuring its high-quality and reliability.

Steel beams are essential in construction projects, especially in building steel structures. Because of its high strength and versatility, it is used in various applications such as building frames, bridges, and towers. The BAODU Steel Beam is a reliable and cost-effective solution for any structural need.

The BAODU Steel Beam can be customized according to the customer's requirements. The product comes in various shapes, including the popular beam shape. The technical aspect of the product is hot-rolled, and it offers processing services such as punching, cutting, and welding. The length of the steel beam can be 1-12m or as per the customer's request.

Overall, the BAODU Steel Beam is an excellent product for any steel structure project. Its high-quality and reliability make it a popular choice among contractors and engineers. With its flexible payment terms, reasonable price, and timely delivery, customers can rely on the product's availability and delivery.

## Support and Services:

Our Steel Beam product comes with a comprehensive technical support and services package to ensure that our customers have a seamless experience from purchase to installation. Our team of experts is available to provide guidance and answer any technical questions you may have about the product. We also offer installation services to ensure that your Steel Beam is installed correctly and efficiently. In addition, we provide ongoing maintenance and repair services to ensure that your Steel Beam remains in top condition over time. Contact us for more information about our technical support and services package.

## Packing and Shipping:

Product Packaging:

The steel beams will be securely packaged in bundles, with each bundle having a steel band around it to ensure that the beams remain in place during transportation.

Each bundle will be labeled with the product name, size, quantity, and weight, as well as any handling instructions.

The bundles will be loaded onto a pallet and wrapped in shrink-wrap to provide additional protection during shipping.

Shipping:

The steel beams will be shipped via a reputable carrier that specializes in heavy and oversized items.

Shipping costs will be calculated based on the weight and size of the order, as well as the destination.

Customers will be notified of the shipping costs and expected delivery date before the order is finalized.

Once the order has been shipped, customers will receive a tracking number that they can use to track the delivery of their order.

## FAQ:

Q: What is the brand name of the product?

A: The brand name of the product is BAODU.

Q: What is the model number of the product?

A: The model number of the product is Steel Beam.

Q: Where is the product made?

A: The product is made in Hebei, China.

Q: What is the minimum order quantity?

A: The minimum order quantity is discussible.

Q: What are the payment terms?

A: The payment terms are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.
