

Construction Structural Mild Steel Angle Iron Hot Rolled Gi Angle Bar

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001:2008, SGS
- Model Number: Angle Steel
- Minimum Order Quantity: 1 ton
- Price: Reasonable
- Packaging Details: Export standard packing or according to customers' requirement
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 40000 Ton/Tons per Month

Product Specification

- Weight: Customizable
- Use: Beam, Bridge, Transmission Tower, Ship Etc
- Surface Treatment: Galvanized/Coated
- Width: Customizable
- Application: Construction/Structural Support
- Dimensions: 20*20--200*200mm
- Type: Equal Or Unequal
- Material: Steel
- Highlight: **Mild Steel Angle Iron,
Hot Rolled Gi Steel Angle Bar,
Construction Structural Steel Angle Bar**

Product Description

Construction Structural Mild Steel Angle Iron Hot Rolled Gi Steel Angle Bar

Product Description:

The Stainless Steel Tile Angle is customizable and can be manufactured in different widths, lengths, and dimensions as per the specific requirements of the customer. This ensures that the product can be tailored to fit the needs of a wide range of applications, from construction to industrial use. The normal length of the product ranges from 1-12m or as requested by the customer.

The Stainless Steel Angle is manufactured using the hot-rolled technique, which ensures that the product is strong and durable. This technique involves heating the stainless steel to a high temperature and then rolling it into the desired shape and size. The result is a product that is free from defects, has a smooth surface finish, and is easy to work with.

The Stainless Steel Angle is commonly used in applications such as beams, bridges, transmission towers, ships, and more. Its versatility and durability make it an ideal choice for use in harsh environments where corrosion and wear and tear are a concern. Its corrosion-resistant properties also make it suitable for use in applications that require exposure to moisture and other harsh elements.

In conclusion, the Stainless Steel Angle is a versatile and durable product that is widely used in construction and industrial applications. Its customizable dimensions, hot-rolled technique, and corrosion-resistant properties make it an ideal choice for a wide range of applications. Whether you need a stainless steel angle for a construction project or an industrial application, this product is sure to meet your needs.

Features:

Product Name: Steel Angle

Width: Customizable

Thickness: Customizable

Normal Length: 1-12m Or As Request

Type: Equal Or Unequal

Material: Steel

Keywords: 304 stainless steel angle valve, steel angle with holes, steel angle price per ton

Technical Parameters:

Type	ASTM A36 A53 Q235 Q345 Carbon Equal 2 Inch Angle Steel Galvanized Iron L Shape 250x250 Mild Steel Angle Bar	
Standard	GB/T9787-88, JIS G3192:2000, JIS G3101:2004, BS EN10056-1:1999, BS EN10025-2:2004	
Materials	Q235B, Q345B, SS400, SS540, S235JR, S235JO, S235J2, S275JR, S275JO, etc.	
Thickness	3-24mm	
Length	1-12 m, or as requirements	
Equal Angle	Size	20-200mm
	Weight	0.597-71.168kg/m
Unequal Angle	Size	25*16-200*125mm
	Long Side	20-200mm
	Short Side	16-125mm
	Weight	1.687-43.588kg/m
Surface Treatment	oil, black, galvanized, painted	
Technique	hot rolled/cold rolled/galvanized	
Packing	with bundle, as per standard seaworthy package or as customer's requirement	
Application	widely used in various building structure and engineering structure, such as the beam, bridges, transmission tower, lifting transportation machinery, ship, industrial furnace, reaction tower and container frame etc.	

Applications:

Our Angle Steel product is manufactured in Hebei, China, and comes with ISO9001:2008 and SGS certifications. The minimum order quantity is 1 ton, and we offer a reasonable price for our product. We can pack the product as per export standards or as per customer requirements.

The delivery time for our Angle Steel product is 21 days, and we accept payment terms such as L/C, D/A, D/P, T/T, Western Union, and MoneyGram. We have a supply ability of 40000 Ton/Tons per month.

The product is suitable for various construction applications such as supporting structures, building frames, and reinforcing concrete. The product is ideal for those looking for an L angle steel bar with a hole for construction, steel angle with holes, or stainless angle steel.

Our Angle Steel product is a high-quality product that is made to last and is suitable for a wide range of applications. With its high strength and corrosion-resistant properties, it is perfect for use in various construction projects.

Customization:

Brand Name: BAODU

Model Number: Angle Steel

Technique: Hot Rolled

Place of Origin: Hebei, China

Certification: ISO9001:2008, SGS

Minimum Order Quantity: 1 ton

Price: Reasonable

Packaging Details: Export standard packing or according to customers' requirement

Delivery Time: 21 days

Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Supply Ability: 40000 Ton/Tons per Month

Features: High Strength/Corrosion Resistant

Shipping: Shipped By Container/break Bulk

Width: Customizable

Product Description: Our angle steel, also known as I shaped angle steel bar, is made from high-quality steel and is ideal for structural applications. It can be used as an angle bracket steel or in angle line structural steel applications. Our angle steel is hot rolled and corrosion resistant, making it a durable and reliable choice for your construction needs.

Support and Services:

Our Steel Angle products come with comprehensive technical support and services to ensure that you have a successful installation and

usage. Our team of experts is available to answer any questions you may have about the product and its specifications. We also offer on-site training and installation support to ensure that your project is completed efficiently and effectively. In addition, we provide ongoing maintenance and repair services to ensure that your Steel Angle product remains in optimal condition throughout its lifespan. Trust us to provide the technical support and services you need for a successful project.

Packing and Shipping:

Product Packaging:

The steel angles will be packaged in bundles of 10 pieces each.

The bundles will be securely tied with steel straps.

The ends of the angles will be protected with plastic caps to prevent damage during transportation.

The bundles will be labeled with product information including size, quantity, and weight.

Shipping:

The steel angles will be shipped via truck or container, depending on the order size.

The shipping method will be determined based on the most cost-effective and efficient option.

The shipping cost will be calculated based on the weight and distance of the delivery location.

The customer will be provided with a tracking number to monitor the shipment's progress.

FAQ:

Q1: What is the brand name of the steel angle product?

A1: The brand name of the steel angle product is BAODU.

Q2: Where is the steel angle product manufactured?

A2: The steel angle product is manufactured in Hebei, China.

Q3: What certifications does the steel angle product have?

A3: The steel angle product is certified with ISO9001:2008 and SGS.

Q4: What is the minimum order quantity for the steel angle product?

A4: The minimum order quantity for the steel angle product is 1 ton.

Q5: What are the payment terms for the steel angle product?

A5: The payment terms for the steel angle product include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.
