

High Strength Hot Rolled Steel Angle Enhanced Corrosion Resistance

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei,China
- Brand Name: BAODU
- Certification: ISO9001:2008,SGS
- Model Number: Angle Steel
- Minimum Order Quantity: 1 ton
- Price: Reasonable
- Packaging Details: Export standard packing or according to customers' requirement
- Delivery Time: 21days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 40000 Ton/Tons per Month

Product Specification

- Features: High Strength/Corrosion Resistant
- Type: Equal Or Unequal
- Shipping: Shipped By Container/break Bulk
- Technique: Hot Rolled
- Shape: Right Angle
- Dimensions: 20*20--200*200mm
- Material: Steel
- Size: Customizable
- Highlight: **High Strength Hot Rolled Angle Steel,
Corrosion Resistance Hot Rolled Steel Angle,
Enhanced Corrosion Resistance Steel Angle**

Hot Rolled Steel Angle / Angle Steel with Enhanced Corrosion Resistance

Product Description:

Our Steel Angle products come in a range of customizable thickness and size. This allows you to choose the perfect fit for your specific needs. Whether you need a small or large steel angle, our products can be customized to meet your requirements.

The Steel Angle is manufactured using hot rolled technique, which ensures that the product has high strength and is more ductile than other types of steel. This makes it ideal for use in construction projects where strength and durability are crucial.

Our Steel Angle has a dimension range of 20*20--200*200mm, making it suitable for a wide range of building applications. Whether you're building a commercial or residential property, this product can be used in various applications such as framing, bracing, and supporting.

The Steel Angle is available in two surface treatment options: galvanized and coated. The galvanized option offers excellent protection against rust and corrosion, making it ideal for outdoor applications. On the other hand, the coated option offers an aesthetically pleasing finish that can be used for indoor applications.

Whether you need stainless angle steel or stainless steel angle steel, our Steel Angle products are made from high-quality materials that meet industry standards. We take pride in providing our customers with durable and reliable products that can withstand the toughest environments.

Overall, the Steel Angle is a versatile and durable material that can be used in a wide range of construction projects. With its customizable thickness and size, hot rolled technique, dimension range, and surface treatment options, our Steel Angle products are the perfect fit for your building needs. Contact us today to learn more about our Steel Angle products and how they can benefit your next project.

Features:

Product Name: Steel Angle

Material: Steel

Shipping: Shipped By Container/break Bulk

Application: Construction/Structural Support

Normal Length: 1-12m Or As Request

Features:

High Strength

Corrosion Resistant

This angle steel product is perfect for construction and structural support. It is made of high-strength, corrosion-resistant steel and can be shipped by container or break bulk. The normal length is 1-12m, but can be customized to fit your specific needs. Whether you're building a new structure or reinforcing an existing one, this galvanized angle steel is the perfect solution.

Technical Parameters:

Type	ASTM A36 A53 Q235 Q345 Carbon Equal 2 Inch Angle Steel Galvanized Iron L Shape 250x250 Mild Steel Angle Bar	
Standard	GB/T9787-88, JIS G3192:2000, JIS G3101:2004, BS EN10056-1:1999, BS EN10025-2:2004	
Materials	Q235B, Q345B, SS400, SS540, S235JR, S235JO, S235J2, S275JR, S275JO, etc.	
Thickness	3-24mm	
Length	1-12 m, or as requirements	
Equal Angle	Size	20-200mm
	Weight	0.597-71.168kg/m
Unequal Angle	Size	25*16-200*125mm
	Long Side	20-200mm
	Short Side	16-125mm
	Weight	1.687-43.588kg/m
Surface Treatment	oil, black, galvanized, painted	
Technique	hot rolled/cold rolled/galvanized	
Packing	with bundle, as per standard seaworthy package or as customer's requirement	
Application	widely used in various building structure and engineering structure, such as the beam, bridges, transmission tower, lifting transportation machinery, ship, industrial furnace, reaction tower and container frame etc.	

Applications:

One of the most common applications for L angle steel is in construction. It can be used as a structural support for buildings, bridges, and other infrastructure projects. Stainless steel angle is also a popular choice for outdoor applications, as it is resistant to corrosion and rust. This makes it an ideal choice for structures that will be exposed to harsh weather conditions.

In addition to construction, angle steel has a variety of other uses. It can be used in manufacturing and fabrication for creating brackets, frames, and other metal components. It is also used in the automotive industry for creating chassis and other structural components.

Angle steel can also be used in the agricultural industry for creating fences, gates, and other farm structures. It is strong and durable, making it an ideal choice for outdoor applications. The galvanized or coated surface treatment options can protect the steel from rust and other forms of corrosion.

The packaging details of this product are export standard, ensuring that the product will arrive at its destination safely. The delivery time is 21 days, with a minimum order quantity of 1 ton. Payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

With a supply ability of 40000 Ton/Tons per month, BAODU Angle Steel is a reliable and cost-effective option for a variety of applications. Whether you need it for construction, manufacturing, automotive, or agricultural purposes, this product is a versatile and durable choice.

Customization:

Our steel angle is made in Hebei, China, and is certified with ISO9001:2008 and SGS. We offer a reasonable price with a minimum order quantity of 1 ton. Our packaging details include export standard packing or according to customers' requirement. Delivery time is 21 days and we offer payment terms of L/C, D/A, D/P, T/T, Western Union, and MoneyGram. Our supply ability is 40000 Ton/Tons per month, ensuring that we can meet your needs.

Choose BAODU for all of your steel angle needs. Contact us today to inquire about customizing your stainless steel tile angle or 304 stainless steel angle valve.

Support and Services:

The Steel Angle product Technical Support and Services include:

Expert technical guidance on product specifications, applications, and usage.

Material selection assistance to ensure the right product for the job.

Custom fabrication services to meet unique project requirements.

Quality control and testing to ensure product performance and reliability.

On-time delivery and logistics support to meet project deadlines.

Packing and Shipping:

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is BAODU.

Q: What is the model number of this product?

A: The model number of this product is Angle Steel.

Q: Where is this product manufactured?

A: This product is manufactured in Hebei, China.

Q: What certifications does this product have?

A: This product is certified with ISO9001:2008 and SGS.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 ton.

Q: What is the price of this product?

A: The price of this product is reasonable.

Q: What are the packaging details for this product?

A: The packaging details for this product are export standard packing or according to customers' requirement.

Q: What is the delivery time for this product?

A: The delivery time for this product is 21 days.

Q: What are the payment terms for this product?

A: The payment terms for this product are L/C, D/A, D/P, T/T, Western Union, MoneyGram.

Q: What is the supply ability for this product?

A: The supply ability for this product is 40000 Ton/Tons per month.
