### Applications:

With its excellent strength to weight ratio, the BAODU Steel Channel is perfect for use in steel structures, as well as for a range of other applications. It can be used in construction, manufacturing, automotive, and many other industries. Its galvanized/black/coated surface treatment ensures long-lasting durability, even in harsh environments.

The Steel Channel is CE, ISO, and SGS certified, ensuring that it meets the highest standards of quality and safety. It is available for purchase in minimum quantities of 1 ton, with a supply ability of 40000 Ton/Tons per month.

The Steel Channel is available in 3 metres, 5.8 meter, 6 meter or as per requirement length. It can be processed according to your specific needs, including bending, welding, punching, decoiling, and cutting. This makes it a highly adaptable product, suitable for a wide range of uses.

When it comes to packaging, we use the steel frame packing to keep goods from being broken for steel structures. For sandwich panels and color steel sheets, we use plastic packing. If clients require special packing, we will accommodate their needs.

Delivery time for this product is 15 days, and we accept a range of payment terms, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

In summary, the BAODU Steel Channel is a reliable and versatile product that is perfect for a range of applications. With its high-quality raw materials, excellent surface treatment, and adaptable processing options, it is a product that can be tailored to your specific needs. Its reasonable price makes it an excellent value for money, and its certifications ensure that it meets the highest standards of quality and safety.

### Support and Services:

Our Steel Channel product comes with comprehensive technical support and services to ensure that you have a seamless experience with our product. Our team of experts are available to provide technical support and assistance throughout the product lifecycle, from installation and commissioning to maintenance and repair. We also offer training sessions to help you understand the product better and to improve the efficiency and effectiveness of its use. In addition, we provide customization services to meet your specific requirements and to ensure that the product meets the unique needs of your business. Our goal is to provide you with the highest level of support and services possible to make your experience with our Steel Channel product a success.

### Packing and Shipping:

**Product Packaging:**

The steel channels will be packed securely in steel sheet crates to ensure safe transportation. Each crate will be marked with a product label indicating product information and handling instructions.

**Shipping:**

Shipping will be arranged through our trusted freight carriers. The delivery time will vary depending on the destination, but we will provide an estimated delivery date upon confirmation of the order. Please note that additional shipping fees may apply for expedited delivery or special handling requests.
