

## Customizable Fireproof Foam Glass Wool Sandwich Panel For Building Materials

### Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

#### Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: CE
- Model Number: Glasswool Sandwich Panel
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

#### Product Specification

- Product Name: Customizable Length And Color Fireproof Fireproof Foam Glass Wool Sandwich Panel For Building Materials
- Length: Customized
- Color: RAL Color; Customized
- Panel Type: Glasswool Sandwich Panel
- Width: 1M
- MOQ: Customized
- Advantage: Fireproof/ Waterproof/ Soundproof/ Thermal Insulation/ Environmental
- Thickness: 50mm 75mm 80mm 100mm 125mm 150mm 200mm
- Warranty: More Than 50 Years
- Keyword: Glass Wool Sandwich Panel

## Product Description

### Customizable Length And Color Fireproof Fireproof Foam Glass Wool Sandwich Panel For Building Materials

#### Product Description:

The fireproof glass wool sandwich panel is available in customized lengths, making it perfect for use in different building structures. The panels are designed to provide excellent thermal insulation, ensuring that the indoor temperature remains at a comfortable level regardless of the outside temperature. The panels are also lightweight, making them easy to transport and install.

This product is ideal for use in areas where fire resistance is essential. The fireproof glass wool sandwich panel is designed to provide excellent fire resistance, ensuring that the building structure remains intact during a fire. This feature makes it a great product for use in public buildings, hospitals, and hotels, where safety is a top priority. The fireproof glass wool sandwich panel also has excellent waterproof properties, making it ideal for use in areas that are prone to moisture. The panels are designed to prevent moisture from entering the building structure, ensuring that the building remains dry all year round.

The fireproof glass wool sandwich panel is also an excellent soundproofing material. The panels are designed to reduce noise levels, making them ideal for use in areas that require a quiet environment. This feature makes it a great product for use in hospitals, schools, and libraries. The fireproof glass wool sandwich panel also comes with a free sample, allowing customers to test the product before making a purchase. This feature ensures that customers are satisfied with the product before investing their money.

The surface treatment of the fireproof glass wool sandwich panel is customized to meet the specific needs of each customer. This feature ensures that the panels are perfectly suited for the building structure, providing a seamless finish.

In summary, the fireproof glass wool sandwich panel is a fire-resistant, waterproof, soundproof, thermal insulation, and environmentally friendly product. It is perfect for use in various building structures, including hotels, hospitals, office buildings, and residential homes. The panels are available in customized lengths, making them perfect for use in different building structures. The panels also come with a free sample, allowing customers to test the product before making a purchase. The surface treatment of the panels is customized to meet the specific needs of each customer, ensuring a seamless finish.

#### Technical Parameters:

Allowable vertical load and thermal conductivity of BAODU new model fireproof glass wool roof sandwich panel (allowable deflection $f \leq L/200$ )								
S(mm)	W/m <sup>2</sup> K	G(kg)	P=KN/m <sup>2</sup>	0.60	0.80	1.00	1.20	1.50
50	0.69	12.95	L(m)	3.74	3.23	2.86	2.57	2.23
70	0.47	14.50	L(m)	5.01	4.34	3.86	3.48	3.05
100	0.36	16.04	L(m)	6.21	5.32	4.73	4.28	3.75
125	0.34	17.06	L(m)	7.11	6.31	5.77	4.93	4.32
150	0.33	19.14	L(m)	8.00	6.94	6.18	5.58	4.89
200	0.30	22.78	L(m)	9.79	8.56	7.63	6.88	6.00

#### Applications:

The packaging details for this product are designed to ensure that the goods are not damaged during transportation. For steel structures, the product is packed using a steel frame. For sandwich panels and color steel sheets, plastic packing is used. If clients require special packing, it can be arranged according to their requirements.

The Glasswool Sandwich Panel is an excellent building material that can be used in a variety of applications. It is perfect for building warehouse roofing walls and roofs for buildings. It is also ideal for Foam Color Steel Exterior Wall roofs. This product is fireproof and offers excellent thermal insulation. It is also waterproof and soundproof, making it an ideal choice for a wide range of applications.

This product has a density of 64kg/m<sup>3</sup> and is perfect for those looking for a high-quality building material that offers excellent performance. The Glasswool Sandwich Panel is also an environmentally friendly product and is perfect for those looking for a sustainable building material.

BAODU Glasswool Sandwich Panel offers project solution capability and can be used for graphic design, 3D model design, and total solution for the project. This product is an excellent choice for those looking for a high-quality building material that offers excellent performance, durability, and flexibility.

If you are looking for a fireproof glass wool sandwich panel that offers excellent thermal insulation and is environmentally friendly, then BAODU Glasswool Sandwich Panel is the perfect choice for you. Contact us today to discuss your requirements and to place an order.

#### Support and Services:

The Glass wool Sandwich Panel product is supported by our technical team who are available to answer any questions or concerns you may have regarding the installation or use of the product. Our technical support includes:

[Product installation guidance](#)

[Product performance testing](#)

[Product maintenance and repair advice](#)

In addition to technical support, we also offer various services to ensure your satisfaction with the Glasswool Sandwich Panel product. These services include:

[Product customization to fit your specific needs](#)

[On-site installation services](#)

[Product training for your staff](#)

[Product warranty and after-sales services](#)

Our goal is to provide you with the highest level of support and services to ensure that you get the most out of your Glasswool Sandwich Panel product.

### Packing and Shipping:

Product Packaging:

The glasswool sandwich panels are packed in bundles with plastic wrapping.

The panels are then placed on wooden pallets and secured with strapping.

The pallets are covered with plastic film for added protection during transportation.

Shipping:

The glasswool sandwich panels are shipped via sea or land transportation.
