

Prefab Engineering Galvanized Workshop Steel Warehouse Buildings Design

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei,China
- Brand Name: BAODU
- Certification: ISO9001,CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure , we use the steel frame packing to keep goods not to be broken . For sandwich panel and color steel sheet, we use the plastic packing . If the clients need special packing will according to their requirements.
- Delivery Time: 15-21days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

Product Specification

- Product Name: Prefab Engineering Galvanized Workshop Steel Warehouse Buildings Design Structure Truss Purlin
- Security: High
- Drawing Design: SAP2000/AutoCAD /PKPM /3D3S/TEKLA
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Surface Treatment: Hot Dip Galvanised Or Painted
- Door: Sliding Door, Rolling Door, Shutter Single Door, Color Steel
- Maintenance: Low
- Material: Steel
- Certificate: ISO9001, CE
- Roof & Wall Panel: Sandwich Panel

Prefab Engineering Galvanized Workshop Steel Warehouse Buildings Design Structure Truss Purlin

Product Description:

The surface treatment of the Prefab Steel Warehouse is of the utmost quality. It is hot dip galvanized or painted, which provides an extra layer of protection against corrosion and rust. This means that the steel structure will remain in excellent condition for years to come, even in harsh environments.

The roof and wall panels of the Prefab Steel Warehouse are made of high-quality materials, including color steel veneer, rockwool sandwich panel, PU sandwich panel, and more. These materials provide excellent insulation, ensuring that the building remains energy-efficient while keeping the interior comfortable and protected from the elements. This steel structure is designed to have a long fatigue life, meaning that it can withstand continuous use without breaking down or requiring frequent repairs. It is a highly durable solution that can withstand heavy loads and harsh conditions, making it an ideal choice for businesses looking for a building that can handle their demands. The Prefab Steel Warehouse is perfect for a range of applications, including steel warehouse workshops, hangar halls, and storage buildings. It is a building that is easy to install and can be customized to meet the specific needs of the user. Building Galvanized Storage Light Steel Building is made easy with the Prefab Steel Warehouse. The gable frame Steel Structure is designed to be versatile and customizable, making it an ideal solution for businesses looking for a reliable and durable building option.

Features:

Items		Specification
Main steel frame	Column	Q235, Q355 Welded H Section Steel
	Beam	Q235, Q355 Welded H Section Steel
Secondary Frame	Purlin	Q235 C and Z purlin
	Knee brace	Q235 Angle Steel
	Tie Rod	Q235 Circular Steel Pipe
	Brace	Q235 Round Bar
Maintenance system	Roof Panel	EPS Sandwich Panel/ Glass Fiber Sandwich Panel/ Rock Wool Sandwich Panel
	Wall Panel	Sandwich Panel/ Corrugated Steel Sheet
Accessories	Window	Aluminium Alloy Window/ PVC Window/ Sandwich Panel Window
	Door	Sliding Sandwich Panel Door/ Rolling Metal Door/ Personal Door
Structure Usage		Up to 50 years
Finishing Options		Vast array of colors and textures available

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____(height)mm
- 9 window quantity & size _____units, _____(width)mm*_____(height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____tons; Max. Lifting height _____m.

Applications:

Steel structure warehouse

Steel structure factory building

Steel structure building

Steel structure garage/hangar

Steel structure house

Steel structure livestock house

- 1) Moisture and heat resistance, waterproof and fireproof.
- 2) It can be freely lifted, fixed and combined.
- 3) Convenient transportation, cheap price and cost saving.
- 4) It is easy to assemble and disassemble, and it will not be damaged many times.
- 5) The service life is more than 50 years.
- 6) We provide remote online installation, supervision and training services. For major projects, we will conduct on-site guidance, installation and post-maintenance.
- 7) Prefabricated houses, offices, warehouses, workshops, greenhouses, workshops, garages, cold storages, container houses, hotels, toilets, etc...

BAODU Steel Warehouse is a gable frame Steel Structure building that is perfect for a variety of application occasions and scenarios. It is made of high-quality steel material and is designed to be highly durable, making it ideal for long-term use. This Steel Warehouse is designed and manufactured in Hebei, China, and is certified with ISO9001 and CE certifications, ensuring that it meets all the necessary quality standards.

The Steel Warehouse has a minimum order quantity that is discussible, and its price is reasonable. The packaging details are also well-thought-out. For steel structure, the steel frame packing is used to keep the goods from breaking, while for sandwich panels and color steel sheets, plastic packing is used. If the clients need special packing, it will be according to their requirements. The delivery time is 21 days, and the payment terms are flexible, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The Supply Ability is 10000 Square Meter/Square Meters per Month.

The Steel Warehouse is perfect for a wide range of application occasions and scenarios. It is ideal for Building Galvanized Storage Light Steel Building, providing ample storage space for various types of equipment and products. The gable frame Steel Structure makes it easy to customize the building to the client's specific requirements. The Steel Warehouse can also be used as a workshop, factory, or distribution center, providing a safe and secure working environment for employees.

The Steel Warehouse is also highly versatile, with a range of door options, including sliding doors, rolling doors, shutter single doors, and color steel doors. The surface treatment is hot dip galvanized or painted, providing excellent protection against rust and corrosion. This ensures that the Steel Warehouse remains in excellent condition, even in harsh environments. The Steel Warehouse is a high-quality, durable, and versatile solution for a wide range of application occasions and scenarios.

Overall, the BAODU Steel Warehouse is an excellent choice for anyone looking for a reliable and durable steel structure building. Its gable frame Steel Structure design, high-quality material, and excellent surface treatment make it ideal for a wide range of application occasions and scenarios.

Customization:

Competitive Price

With over 12 years of experience in steel structure industry, BAODU can provide the most reasonable and economical scheme to prevent over designs. Long term partnerships with raw material product suppliers give us the ability to control quality and price effectively. Large-scale production reduces our procurement, production and management costs, which can bring customers more economic benefits. We produce both steel structure (frame) and wall and roof panels, reducing external sourcing, ensuring consistency in product quality and further saving on costs.

Vast Experience in the foreign projects

In the past 13 years, BAODU's products are exported to more than 50 countries and regions, we have vast experience in design, transportation and overseas installation. Do not worry that you are far away from us, whether Asia, Oceania, America or Africa, we can provide installation workers or installation instructions according to customer needs for the project. For us, the end of a project is not you pay us to get the products, but you successfully complete the installation of our products.

Good Quality

Quality first, which is the key to our success in these years. We develop new technologies to improve the performance of our products, even if using the same raw materials, our products will be in more high quality.

Reputation

Our company have a good reputation and credibility in the industry. The customers that we have cooperated evaluate our company as follow, "This is a professional company, which has good service attitude, which really solves problem for customers, which can be trusted by the customers. It's a great thing to cooperate with such a company. You don't need to worry about the quality of the products, don't need to worry about the transport and installation. They will give you the most reasonable and economical design, transportation and installation plan"

Support and Services:

Our Prefab Steel Warehouse product comes with comprehensive technical support and services to ensure that you have the best experience with our product. Our team of experts is available to provide you with assistance with any issues you may encounter during the installation or use of our product. We also offer maintenance and repair services to keep your warehouse in optimal condition. Our technical support and services include:

[Installation guidance and support](#)

[Maintenance and repair services](#)

[Technical documentation and manuals](#)

[Training and education on product use and safety](#)

[24/7 customer support](#)

We are committed to providing you with the highest level of support and services to ensure that your Prefab Steel Warehouse is operating efficiently and effectively. Please do not hesitate to contact us with any questions or concerns.

Packing and Shipping:

Product Packaging:

[All steel components are carefully packaged in high-quality, durable materials to ensure safe transportation and delivery.](#)

[The panels are stacked and wrapped with protective materials to prevent scratches and damages during transit.](#)

[All components are labeled and numbered for easy identification and assembly.](#)

Shipping:

[Shipping arrangements will be made by our team, using reliable and trusted carriers to ensure timely and safe delivery.](#)

[Shipping costs will be calculated based on the destination and weight of the shipment.](#)

[Customers will be provided with tracking information once the shipment has been dispatched.](#)

FAQ:

Q: What is the brand of the product?

A: The brand name of the product is BAODU.

Q: What is the model number of the product?

A: The model number of the product is Steel Warehouse.

Q: Where is the product made?

A: The product is made in Hebei, China.

Q: Is the product certified?

A: Yes, the product is certified with ISO9001 and CE.

Q: What is the minimum order quantity?

A: The minimum order quantity is discussible.

Q: What is the price of the product?

A: The price of the product is reasonable.

Q: How is the product packaged?

A: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing, we will according to their requirements.

Q: What is the delivery time?

A: The delivery time is 21 days.

Q: What are the payment terms?

A: The payment terms are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q: What is the supply ability of the product?

A: The supply ability of the product is 10000 square meter/square meters per month.
