

Steel Structure Workshop Building Steel Frame Workshop The Steel Warehouse

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei,China
- Brand Name: BAODU
- Certification: ISO9001,CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure , we use the steel frame packing to keep goods not to be broken . For sandwich panel and color steel sheet, we use the plastic packing . If the clients need special packing will according to their requirements.
- Delivery Time: 21days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

Product Specification

- Product Name: Steel Structure Workshop Building Steel Frame Workshop The Steel Warehouse
- Purlin: C.Z Shape Steel
- Maintenance: Low
- Window: Aluminum Alloy Window, Plastic Steel
- Door: Sliding Door, Rolling Door, Shutter Single Door, Color Steel
- Application: Steel Storage, factory Or Logistic Warehouse
- Weather Resistance: High
- Grade: Q235, Q355
- Surface Treatment: Hot Dip Galvanised Or Painted
- Keyword: Steel Warehouse
- Highlight: **Low Maintenance Prefabricated Steel Warehouse**

Steel Structure Workshop Building Steel Frame Workshop The Steel Warehouse

Product Description:

Our prefab steel warehouse is made of light steel structure, which is perfect for businesses with a limited budget. Despite its lightweight, this type of structure is known for its strength and durability, making it ideal for warehouses that need to store heavy equipment and goods.

The steel used in our prefab steel warehouse is of Grade Q235 and Q355. These types of steel are known for their excellent welding characteristics and their ability to resist corrosion. This means that your warehouse will last longer and require minimal maintenance, which will save you time and money in the long run.

One of the highlights of our prefab steel warehouse is its gable frame steel structure. This type of structure is known for its simplicity and stability. It is designed to withstand heavy loads and strong winds, making it ideal for warehouses located in areas prone to extreme weather conditions. The gable frame steel structure also allows for easy expansion and customization, giving you the flexibility to adapt to your business needs.

In terms of maintenance, our prefab steel warehouse requires low upkeep. The steel used in its construction is resistant to rust and corrosion, which means you don't have to worry about replacing or repainting the warehouse frequently. Additionally, the light steel structure makes it easy to clean and maintain, saving you time and effort.

Overall, our prefab steel warehouse is an excellent solution for businesses in need of a reliable and cost-effective warehouse. With its gable frame steel structure, light steel construction, and low maintenance requirements, you can be sure that you are getting a high-quality product that is built to last. Contact us today for more information or to request a quote.

Features:

Name	Steel Structure Building	
Main Material	Q235 - Q420 Welded H Beam And Hot Rolled Section Steel	
Surface	Painting Or Galvanizing	
Roof And Wall Panel	EPS Sandwich Board, Single Corrugated Steel Plate, Glass Cotton Colored Board for Customers'Choice	
Window	PVC Or Aluminum Alloy	
Door	Sliding Door Or Rolling Shutter Door	
Service	Design	We have experienced designers to design.
	Manufacture	We can manufacture all kinds of steel structure products according to customers'needs.

	Installation	We provide detailed drawings to ensure installation. It also provides installation, supervision and training services. We can also send a team of engineers to guide or install on site.
Packing	1. Steel structure components will be in nude packaging with proper protection. .Sandwich panels will be covered with plastic film. 3. Bolts and other accessories will be loaded into wooden boxes. 4. Container Drying Treatment. 5. According to customer's requirement	
Quality Inspection	Factory Self-inspection Customer Inspection Third Party Inspection	

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____ (height)mm
- 9 window quantity & size _____units, _____(width)mm*_____ (height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____ tons; Max. Lifting height _____m.

Applications:

Steel warehouse workshop: The BAODU Steel Warehouse is perfect for use as a steel warehouse workshop. It can be used to store equipment, materials, and products. The product's gable frame Steel Structure design provides ample space for storage and can be customized to meet specific storage needs.

Hangar hall: The durability and strength of the BAODU Steel Warehouse make it an excellent choice for a hangar hall. It is suitable for storing planes, helicopters, and other aircraft. The product's high fire resistance makes it a safe storage option for aircraft.

Prefab Warehouse Construction: The BAODU Steel Warehouse is an ideal product for prefab warehouse construction. It is easy to install and requires minimal maintenance. The product's low maintenance and high fire resistance make it a cost-effective and safe option for prefab warehouse construction.

BAODU Steel Warehouse is a perfect solution for various application occasions and scenarios. It is manufactured with high-quality steel material that ensures durability, stability, and reliability. The product has gained ISO9001 and CE certification, which indicates its high standards and quality.

The Steel Warehouse is ideal for Building Galvanized Storage Light Steel Building. Its structure is designed with a gable frame Steel Structure that provides excellent resistance against winds, snow, and other harsh weather conditions. The product can be used for various purposes such as storage, workshop, garage, and many more.

The Steel Warehouse is easy to install and requires minimum maintenance, making it a perfect choice for many businesses. The product has a reasonable price and can be ordered in minimum quantities, depending on the customer's requirement.

The Steel Warehouse is packaged using steel frame packing to ensure that the goods are not damaged during transportation. For sandwich panel and color steel sheet, we use plastic packing. We can also provide special packing as per the customer's needs.

The Steel Warehouse is delivered within 15-21 days of placing the order. We accept various payment methods such as L/C, D/A, D/P, T/T, Western Union, and MoneyGram. We have a supply ability of 10000 Square Meter/Square Meters per month, making it easy to meet the customer's demand.

The Steel Warehouse is designed using SAP2000, AutoCAD, PKPM, 3D3S, and TEKLA, ensuring accuracy and precision in its design. The product has Aluminum Alloy Window and Plastic Steel window that can be customized as per the customer's preference. The Steel Warehouse has high fire resistance, making it a safe choice for many businesses.

Project Case:

□

Gas Turbine Combined Cycle Power Station Expansion Project in Basra Iraq

Clean Coal Fired Power Plant Phase I (4x600mw net) Project in Hasyan Dubai

Support and Services:

Our prefab steel warehouse product comes with comprehensive technical support and services to ensure that our clients have a hassle-free experience from start to finish. Our professional team is available to provide guidance on product selection, customization and installation. We offer a range of services, including project management, engineering, fabrication, logistics and installation. Our technical support team is available to assist with any product-related queries or issues that may arise. We also provide regular maintenance services to ensure that your prefab steel warehouse remains in top condition for many years to come.

Packing and Shipping:

Product Packaging:

Steel frames and components will be packed in bundles or pallets with protective wrapping materials.

Roof and wall panels will be packed in bundles with protective wrapping materials.

All necessary fittings and accessories will be packed in boxes.
