

Secure Seismic Proof Prefab Steel Warehouse Efficient

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

Product Specification

- Product Name: Cheap Customized Industrial Metal Steel Structure Building Materials Design Warehouse Hangar Prefabricated Workshops Plants
- Purlin: C/Z Galvanized Steel(Q235)
- Tolerance: $\pm 1\%$
- Maintenance: Low
- Durability: High
- Surface Treatment: Hot Dip Galvanized Or Painted
- Material: Steel
- Door: Sliding Door, Rolling Door, Shutter Single Door, Color Steel
- Installation Guide: Installation Drawings And Video
- Roof&wall Material: Steel Sheet Or Sandwich Panel

Product Description

Cheap Customized Industrial Metal Steel Structure Building Materials Design Warehouse Hangar Prefabricated Workshops Plants

Product Description:

One of the key features of this product is its surface treatment options. Customers can choose between a Hot Dip Galvanised or Painted finish to ensure their steel structure is protected from rust and other forms of corrosion. This makes it an ideal choice for industrial applications such as Workshop Industrial Steel, Building Galvanized Storage Light Steel Building, and factory or logistic warehouse. In addition to its protective surface treatment, the Warehouse Steel Structure Building Workshop is also designed for security. With its high-security features, customers can rest assured that their products and materials are safe from theft and damage. The product also includes windows made of either Aluminum Alloy or Plastic Steel to allow for natural light to enter the building. This not only creates a more pleasant working environment but also reduces the need for artificial lighting, ultimately saving on energy costs. Overall, the Warehouse Steel Structure Building Workshop is a versatile and practical solution for those in need of a steel storage facility or industrial building. With its customizable options and high-quality materials, it is sure to meet the needs of any customer looking for a reliable and long-lasting steel structure.

Features:

| | | |
|---------------------|--|--|
| Name | Steel Structrue Building | |
| Main Material | Q235 - Q420 Welded H Beam And Hot Rolled Section Steel | |
| Surface | Painting Or Galvanizing | |
| Roof And Wall Panel | EPS Sandwich Board, Single Corrugated Steel Plate, Glass Cotton Colored Board for Customers'Choice | |
| Window | PVC Or Aluminum Alloy | |
| Door | Sliding Door Or Rolling Shutter Door | |
| Service | Design | We have experienced designers to design. |
| | Manufacture | We can manufacture all kinds of steel structure products according to customers'needs. |
| | Installation | We provide detailed drawings to ensure installation. It also provides installation, supervision and training services. We can also send a team of engineers to guide or install on site. |
| Packing | 1. Steel structure components will be in nude packaging with proper protection. .Sandwich panels will be covered with plastic film. 3. Bolts and other accessories will be loaded into wooden boxes. 4. Container Drying Treatment. 5. According to customer's requirement | |
| Quality Inspection | Factory Self-inspectionCustomer Inspection Third Party Inspection | |

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high

7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.

8 door quantity & size _____units, _____(width)mm*_____ (height)mm

9 window quantity & size _____units, _____(width)mm*_____ (height)mm

10 crane needed or not If yes, _____units, max. Lifting weight _____tons; Max. Lifting height _____m.

Applications:

Steel structure warehouse

Steel structure factory building

Steel structure building

Steel structure garage/hangar

Steel structure house

Steel structure livestock house

The BAODU Steel Warehouse is perfect for various application occasions and scenarios. It is an ideal product for steel storage, factory or logistic warehouse, steel warehouse workshop, hangar hall steel structure, and so on. The product is versatile and can be used for various purposes. The roof and wall panels of this product are made of high-quality materials such as color steel veneer, rockwool sandwich panel, and PU sandwich panel, which makes it a highly durable and long-lasting product. The product features a long fatigue life which makes it a reliable option for your warehouse needs.

The product comes with various door options such as sliding door, rolling door, shutter single door, and color steel. The product is customizable, and the clients can choose the door that suits their needs best. The BAODU Steel Warehouse is perfect for prefab warehouse construction projects. The product is made with high-quality materials and is designed to last for a long time. It is a reliable option for all your storage needs, and it is easy to assemble. The product is perfect for those who need a warehouse solution that is both affordable and efficient.

Customization:

- 1) Cost saving and transportation convenient, customer design available.
- 2) The main beam and column are qualified steel.
- 3) The steel structure makes the house resisting heavy wind of 140km/h and 8 grade earthquake.
- 4) Good ability to assemble and disassemble for several times without damage.
- 5) Widly used in construction site,office building,dormitory etc.
- 6) Environmental protection effect is good. Steel structure housing construction greatly reduces the sand, stone, the dosage of the ash, used materials mainly green, recyclable or degradation materials, building dismantled, most of the material can be recycled or degradation, won't cause much rubbish.

Support and Services:

Our Prefab Steel Warehouse product comes with comprehensive technical support and services to ensure the highest level of customer satisfaction. We offer:

[24/7 technical support via phone or email](#)

[On-site installation and training services](#)

[Regular maintenance and repair services](#)

[Customization options to meet specific project needs](#)

[Access to an online knowledge base and resources](#)

Our team of experienced professionals is dedicated to providing prompt and effective solutions to any technical issues or concerns that may arise. We strive to ensure that our customers are fully satisfied with their purchase and can rely on our support throughout the lifespan of the product.
