

Flexible Expandable Prefab Steel Warehouse Quick Construct

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15-21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

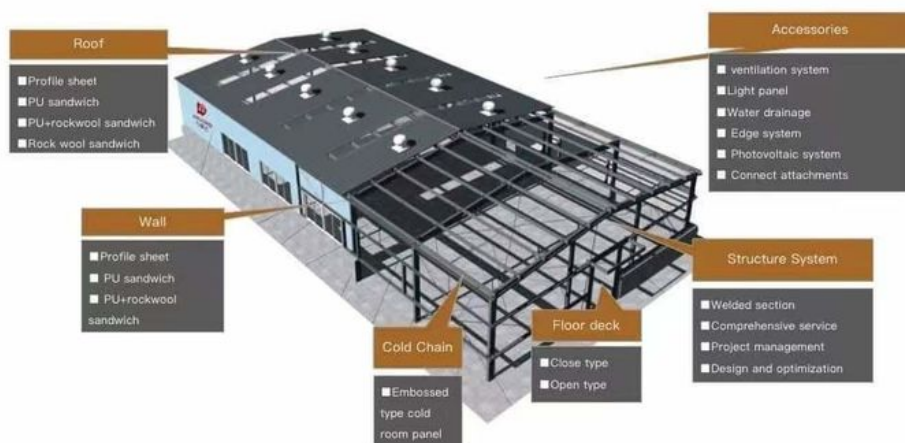

Product Specification

- Roof And Wall: Corrugated/EPS/PU/Rock Wool/glass Wool
- Product Name: Metal Building Prefabricated Steel Shed
Steel Structure Workshop Warehouse Building
- Security: High
- Feature: Long Fatigue Life
- Maintenance: Low
- Roof & Wall Panel: Color Steel Veneer, Rockwool Sandwich Panel, PU Sandwich Panel Etc
- Grade: Q235, Q355
- Keyword: Steel Shed Steel Structure Workshop
- Highlight: **Flexible Prefab Steel Warehouse,
Expandable Prefab Steel Warehouse,
Quick Construct Prefab Steel Warehouse**

Product Description

Metal Building Prefabricated Steel Shed Steel Structure Workshop Warehouse Building

Product Description:

Our workshop industrial steel warehouse is designed to withstand even the toughest conditions, with a high-quality steel frame that offers superior resistance to corrosion, fire, and weather damage. Built to strict industry standards, our steel warehouses are engineered to provide maximum safety and security for your goods and personnel.

With a tolerance of $\pm 1\%$, our prefab steel warehouses are manufactured to precise specifications, ensuring a perfect fit and optimal performance in any environment. And with a fast delivery time of just 15-21 days, you can get your new steel storage facility up and running in no time.

One of the key benefits of our steel structure building warehouse is its long fatigue life, meaning it can withstand years of heavy use without showing signs of wear and tear. This makes it an ideal choice for industrial applications where durability and reliability are essential.

Our workshop industrial steel warehouse is also highly versatile, making it suitable for a wide range of applications, from storage and logistics to manufacturing and assembly. Whether you need a large-scale warehouse or a smaller facility, our modular design allows us to customize your steel building to meet your specific needs.

So if you're looking for a high-quality, reliable, and cost-effective solution for your industrial or storage needs, our prefab steel warehouse is the perfect choice. Contact us today to see how we can help you get the most out of your business operations.

Features:

Advantages of Steel Structures:

- 1. Strength and Durability:** Steel has a high strength-to-weight ratio, making it capable of supporting heavy loads while being relatively lightweight. It also resists deformation and can withstand harsh environmental conditions.
- 2. Versatility:** Steel can be molded into various shapes and sizes, allowing for innovative and flexible designs in architecture and construction.
- 3. Speed of Construction:** Pre-fabricated steel components can be quickly assembled on-site, reducing construction time significantly compared to traditional materials.
- 4. Cost-Effectiveness:** Although the initial material cost may be higher, steel structures often result in lower overall project costs due to faster construction times and lower maintenance requirements.
- 5. Sustainability:** Steel is recyclable, making it an environmentally friendly option. Additionally, using steel can reduce waste during the construction process.
- 6. Fire Resistance:** Steel structures can be treated with fire-resistant coatings, improving their performance in fire situations compared to other materials.

Technical Parameters:

Name	Steel Structrue Building
Main Material	Q235 - Q420 Welded H Beam And Hot Rolled Section Steel
Surface	Painting Or Galvanizing

Roof And Wall Panel	EPS Sandwich Board, Single Corrugated Steel Plate, Glass Cotton Colored Board for Customers'Choice	
Window	PVC Or Aluminum Alloy	
Door	Sliding Door Or Rolling Shutter Door	
Service	Design	We have experienced designers to design.
	Manufacture	We can manufacture all kinds of steel structure products according to customers'needs.
	Installation	We provide detailed drawings to ensure installation. It also provides installation, supervision and training services. We can also send a team of engineers to guide or install on site.
Packing	1. Steel structure components will be in nude packaging with proper protection. .Sandwich panels will be covered with plastic film. 3. Bolts and other accessories will be loaded into wooden boxes. 4. Container Drying Treatment. 5. According to customer's requirement	
Quality Inspection	Factory Self-inspectionCustomer Inspection Third Party Inspection	

Applications:

Gas Turbine Combined Cycle Power Station Expansion Project in Basra Iraq

Clean Coal Fired Power Plant Phase I (4x600mw net) Project in Hasyan Dubai

The warehouse steel structure building workshop is made of Q235 and Q355 grade materials, which ensure its durability and long fatigue

life. The product is certified with ISO9001 and CE, which guarantees its quality. The product can be customized according to the clients' requirements, and the minimum order quantity is discussible.

The roof and wall of the warehouse steel structure building workshop are made of corrugated/EPS/PU/rock wool/glass wool, which ensures good insulation and soundproofing. The surface treatment is hot dip galvanized or painted, which enhances its corrosion resistance and durability. The packaging details are also customizable based on the clients' requirements.

The delivery time for the warehouse steel structure building workshop is 21 days, and the payment terms are flexible, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The supply ability is 10000 square meter/square meters per month, which ensures timely delivery of the product.

The BAODU Steel Warehouse is suitable for different scenarios, including industrial, commercial, and agricultural. It can be used as a storage facility, workshop, factory, or even an office space. Its versatility makes it an attractive option for clients looking for a reliable and cost-effective solution for their building needs.

In general, the warehouse steel structure building workshop is a great investment for clients who want to have a durable and reliable building solution. It can be used in various scenarios and can be customized according to the clients' needs. The product's reasonable price and high-quality make it an attractive option for clients in different industries.

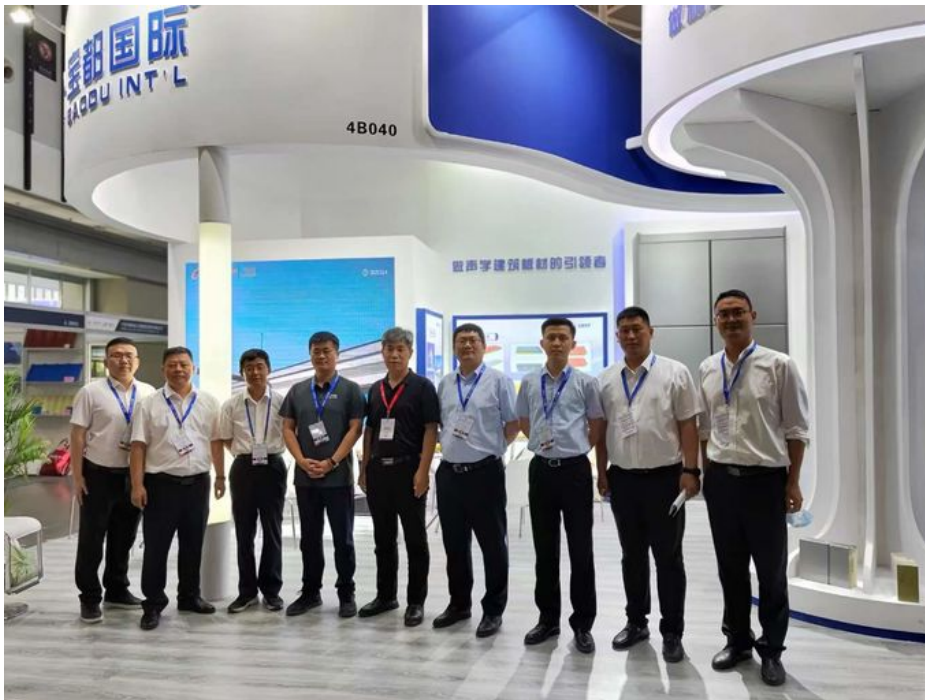

Customization:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____(height)mm
- 9 window quantity & size _____units, _____(width)mm*_____(height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____tons; Max. Lifting height _____m.

Support and Services:

Our Prefab Steel Warehouse product comes with comprehensive technical support and services to ensure that your building project is a success. Our team of experts is available to answer any questions you may have regarding the design, construction, and installation of your steel warehouse. We also provide guidance on maintenance and repair to ensure that your building remains in top condition for years to come. In addition, we offer customization options to meet your specific building needs, including insulation, roofing, and siding. Contact us today to learn more about our technical support and services for the Prefab Steel Warehouse product.

Packing and Shipping:

Product Packaging:

Our prefab steel warehouse comes in a secure and sturdy packaging to ensure safe transport and delivery. The components of the steel building are bundled together, labeled, and packed in wooden crates for protection during transit. The packaging is designed to withstand harsh weather conditions and rough handling during transportation.

Shipping:

We offer shipping to any location worldwide. Our team will arrange for the delivery of your prefab steel warehouse within the agreed timeframe. Please note that shipping costs will vary depending on the destination and size of the structure. We work with reputable shipping companies to ensure your building arrives on time and in good condition.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is BAODU.

Q: What is the model number of this product?

A: The model number of this product is Steel Warehouse.

Q: Where is this product manufactured?

A: This product is manufactured in Hebei, China.

Q: Is this product certified?

A: Yes, this product is certified with ISO9001 and CE.

Q: What are the payment terms for this product?

A: The payment terms for this product include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is discussible.

Q: What is the price range for this product?

A: The price for this product is reasonable.

Q: How is this product packaged?

A: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing, we will according to their requirements.

Q: What is the delivery time for this product?

A: The delivery time for this product is 21 days.

Q: What is the supply ability for this product?

A: The supply ability for this product is 10000 Square Meter/Square Meters per Month.
